New York, NY 2020

Hello,

To whom it may concern

Project Architect

I am a dynamic and ambitious architect with eight years experience in various projects: residential 1 or 2 family homes, high-end residential, commercial, industrial, recreational, hospitality, restaurants, schools and offices. Since graduating from the New York Institute of Technology with a Bachelor degree in Architecture, I have worked in several architecture and design companies.

I possess impeccable technical and computer skills with advanced knowledge in AutoCad, Microsoft Office Package, Adobe Suite Packages, Photoshop, Illustrator, Revit, Rhino, BlueBeam, Google Sketch-Up Pro and other graphics communication programs.

Core competencies include:

Document Preparation; Engaging Presentations; Interpersonal Communications; Team Collaboration; Concept Design; Code Research; Computer Drafting and Design; Quality Customer Service; Administrative Tasks; Adaptive Reuse and Restoration;

My attention to detail and excellent problem-solving skills ensure that every project I work on is done accurately and to the highest possible standard. I am comfortable working as part of a team or have the ability to work as an individual. My verbal communication, writing and administrative skills and positive attitude make me an effective communicator with all clients I work with.

My enclosed resume clearly demonstrates my interest in sustainability and the way in which my skills and experiences are compatible with this role. I look forward to the opportunity of discussing my application with you further and how I can significantly contribute to the ongoing success of your company.

Respectfully Yours,

Dmitri Syrom
